

Cleaning Hot Water Bath

1. Remove all items from the hot water bath.
2. Empty the water into the sink.
3. Wearing gloves clean the inside of the hot water bath with 1-part Spitfire 5 parts water.
4. Rinse out the Spitfire solution with water.
5. Place all items back into the hot water bath.
6. Fill with 1 to 2 inches of water and a splash of Lysol No-Rinse sanitizer.
